---

Jennifer Lagerbohm has a Bachelor's of Science in Environmental Science from Oakland University and a Master's of Science in Occupational Health and Safety from Wayne State University. Jennifer began working with McDowell & Associates in 2001 and is currently a Senior Industrial Hygienist. She has conducted hundreds of Phase I ESA investigations, Phase II ESAs, remedial investigations and oversight, Baseline Environmental Assessments, and Due Care Plans. Her work experience has included asbestos surveys, asbestos operations & maintenance program development, lead-based paint inspections and risk assessments, mold surveys, and indoor air quality investigations.

Jennifer is active in the environmental due diligence community, and is currently Secretary of the Michigan Association of Environmental Professionals Board of Directors.
